

K-LOVE provides my family with good, clean and appropriate programming at any time. There are no commercials that I need to sensor as a concerned parent. They provide promotion of local events and activities for which I like to attend.

It would be a travesty to no longer allow one of the few good stations to be forced off the air due to the LPFM broadcaster. The programming simply can't be replaced or duplicated. Thousands in our local community would be negatively affected by such a change.

The public needs this station to remain as it currently is broadcast. K-LOVE is an outstanding station that plays the only type of music that I want my children and my family to hear. Please do not change the way this must be broadcast.

Respectfully,

Brad Shade
Greeley, Colorado
